General liability, auto, and workers’
compensation in force; certificates and any
bonding furnished on request.

CORE CAPABILITY — SINGLE-SOURCE FACILITY SUPPORT FOR GOVERNMENT

The Yellowhammer Group is a Service-Disabled Veteran-Owned Small Business delivering four core facility support lines under one accountable contract: integrated pest management (NAICS 561710), facilities operations & maintenance (561210), janitorial services (561720), and grounds & landscaping (561730). Crews, management, and past performance are supplied by our affiliate **Pest Control Experts, LLC**, in continuous operation since 2011. We perform on occupied, secure, and medical facilities, document every visit for audit and inspection, and give the contracting officer a single point of accountability instead of a stack of vendors.

- **One SDVOSB, four service lines.** Pest, janitorial, grounds, and facilities O&M under a single vehicle — consolidate what a generalist would split across multiple subcontractors, with one point of contact and one invoice.
- **Low-chemical, documented pest management.** Integrated Pest Management delivered through Pest Control Experts — targeted, reduced-chemical treatment with audit-ready service records for health, food-safety, and facility inspections.
- **Regulated- and secure-facility discipline.** Badging and escort, ICRA/ILSM coordination, containment and HEPA protocols, and scheduling around operations — the compliance a national route company routinely gets wrong on government sites.
- **Follow-on capacity built in.** Awarding one line opens the others at the same site — grounds, custodial, O&M, and pest can be added under the same SDVOSB relationship without re-competing a new vendor.

RELEVANT EXPERIENCE

- **Directly analogous work** performed by the same crews and management through our affiliate **Pest Control Experts, LLC** (founded 2011; common ownership and management with The Yellowhammer Group) — pest management, facilities service, and grounds work across institutional and government buildings.
- **Government and institutional past performance** (affiliate): Birmingham City Schools • U.S. Army • U.S. Air Force • Alabama Department of Public Health • Alabama Department of Corrections. Detailed past-performance references furnished on request.
- **Fifteen years of continuous operation** under the same ownership, with an established government contracting practice at federal, state, and county level.
- **Trade-certified personnel.** Work is performed by certified applicators and trained crews under certified-applicator supervision — not handed to a general route technician.

CONFIRMATION OF PERFORMANCE CAPACITY

✓	Labor — certified-applicator-supervised crews across pest, janitorial, grounds, and facilities trades
✓	Materials — line-appropriate, low-chemical and EPA-registered products, plus cleaning and turf materials matched to the facility
✓	Equipment — access equipment, PPE, monitoring and application equipment, and grounds/custodial machinery
✓	Documentation — audit-ready service records, device maps, and trend reporting for every visit
✓	Scheduling — recurring or on-call service scheduled around operations, including after-hours and secure-area access
✓	Insurance & bonding — general liability, auto, and workers’ compensation in force; bonding available if required

WHY THE YELLOWHAMMER GROUP

- **Verified SDVOSB.** Certified in SBA VetCert — an award helps the agency meet its SDVOSB goal, and satisfies VA’s statutory Veterans First priority under 38 U.S.C. §8127 where applicable.
- **Owner-level accountability.** The Founder’s direct line appears on this page. Escalation does not route through an account desk.
- **Right-sized, with real breadth.** Small-business responsiveness with genuine capability across pest management, janitorial, facilities O&M, and grounds — a single SDVOSB partner for facility support and its follow-on requirements.

Registered and active in SAM.gov and ready to perform as a prime or teaming partner. Detailed past-performance references, certificates of insurance, and licensing furnished on request.
